BREVITIES.

Attorney General Alexander was in Reno yesterday.

Chief of Police Douglas is doing good road work with the chain gang.

A special train of 10 cars of cattle came in on the V. & T. yesterday forenoon.

The weather is getting a little warm in the sun, but the change is very welcome.

Elsewhere will be found the speech of Thos. Fitch, delivered at Cleveland, Ohio, on the silver question. It is well worth reading.

The plains are strewn with dead cattle from Winnemucca to Wells, and the living stock are decidedly rocky and some are dying every day. The loss in all kind of cattle will be very large.

One of the S. P.'s large engines in the yard here yesterday, had a small iron snow plow fastened to the front of it. It looked a little out of season, but is used to guard against falling rocks and dirt along the road between Reno and Truckee.

The sloughs along the Humboldt, west of the sink, are filling up with water. A stream is discharging into the lake, and it is probable that there will be an expanse of water, very shortly where the ground was too dry to germinate seed last summer.

Rabbits Into Eggs.

The Sierra Valley Leader says: "When the heavy snow fell here late in December the rabbits were quite numerous in some localities in this valley. They naturally went to the hay stacks for their daily nourishment, as the sagebrush was covered deep in the snow. Jerad Bates of the Island, killed the rabbits he found in his stack yards and about his ranch, skinned and dressed them, boiled their carcasses, and burned their bones, thus making the flesh and bones both palatable and nutrient food for his chickens. The skins he will no doubt tan and make into lap robes, and the entrails he fed to his hogs, thus utilizing the entire animal. He has a good hen-house with a stove in it, and it was warmed each day during the cold weather. He thinks he has killed 500 rabbits and the result has been to this date 500 dozen eggs, as the product of the 500 rabbits put into 80 hens. He sold 200 dozen for 40 cents a dozen and 300 dozen for from 30 to 35 cents per dozen. He has the growth of the hogs yet to realize from. When the grasshoppers were here eleven years ago, the hens ate them, but the eggs were unfit to eat on account of their bloody condition and they would not produce chicks."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child, coughing and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-swf-y

O'Neill's Monte Cristo.

The popular young actor, Mr. James O'Neill, will produce at the Opera House next Thursday evening, Mr. Charles Fletcher's version of Dumas' great play "Monte Cristo," with a brilliant cast of characters, realistic stage pictures, painted expressly for this play by two of New York's great scenic artists, Messrs. William Voegtlin and Joseph Clare, with all the grand effects, correct appointments, and a car load of special scenery, making the production perfect in every detail.

Nevada's Railroad Builders.

The Salt Lake Tribune says that the Union Pacific Railroad will be built in Southern California in less than two years, and that about 2,000 engineers, bridge builders, graders and track-layers will move from that city into Southern Nevada next month for the purpose of building the road.

California Republicans.

A meeting of the California Republican State Committee will be held in San Francisco on Tuesday, April 15th, for the purpose, among other things, of calling a State Convention to nominate State officers and Congressmen. The general belief is that the committee will order a call issued for some time in August.

WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do it will cost you nothing.

MONEY IN ICE.

Large Fortunes Made in Gathering the Late Crop.

Boston, March 11.—The fortune that awaits the lucky men is illustrated by a report made by a correspondent who recently visited Maine.

"Everybody there," he writes, "is crazy over ice. Men are giving up their regular affairs to make money on ice. Everyone is at work on ice, filling ice-houses, building stacks on the river banks, hauling, selling and shipping the silvery ice—silvery in more senses than one. In Bargar and Augusta coal dealers with empty sheds are filling them with ice. The streets are full of teams carrying the precious loads to the storehouses yet unfilled, and actually they are filling the basements of some stores with ice. A company with houses and machinery all on hand in good shape can house the ice for 15 or 20 cents a ton. Yet a manager of one of the large companies refused to sell for \$9 a ton, although he could have sold 5,000 tons under a contract. If he had sold 5,000 tons at \$4 he would have made a clear profit of \$18,000 or so. There is another manager who last September took a contract to deliver 20,000 tons this Spring and Summer for from 50 to 75 cents a ton. Although this pays him a good profit, on the distant horizon, toward the setting sun, he sees a golden eagle flying from him representing \$65,000, just the difference from the price he could have obtained if he had waited till the early days of March."

BETWEEN THE TWO.

The San Francisco Call comments as follows upon the silver bills before Congress: It is much to be hoped that between the two silver bills, silver may not fall to the ground. The Senate Finance Committee has accepted the Jones bill, which requires the Treasury Department to purchase \$4,500,000 worth of silver per month, paying for the same in Treasury notes which shall be receivable for all public dues, and the House Committee has since accepted Windom's bill, after attaching to it two important amendments. The original features of the bill are known to our readers. One of the amendments provides that when the price of silver reaches \$1 for 371.25 grains of pure silver, the Treasury shall cease to purchase silver, but shall coin all the silver offered. When 371.25 grains of silver are worth \$1, silver will be at a par with gold in the existing ratio. The free coinage of silver under such conditions will simply add to our metallic currency dollars as valuable in the market as gold dollars. There is reason to hope that either bill will cause a steady appreciation of the white metal until it recovers its old rank as money, equal in all respects to gold. If this result follows the United States will have attained a financial triumph. We have asked Europe to join us and Europe has refused. The money-lenders who shape the policy of all European nations have said that the United States could do nothing alone—that an attempt to raise silver to a par with gold would result in a fall to the silver basis. The two houses of Congress have each agreed upon a bill which in effect makes the United States the purchaser of the surplus silver in the world, and it now remains for the Houses which have outlined a policy, to agree upon a bill to give it effect. Probably each House will pass the bill its Finance Committee recommends and the two Houses then appoint a conference committee to modify the two proposed measures that one may be reported which both Houses will accept.

The Missouri State Treasurer has resigned owing to a little discrepancy in his accounts, but he is not greatly worried or cast down. He leaves that to the bondsmen, who are required to give up thirty-two thousand for breach of confidence.

Lynchers Sentenced.

Special to the Journal.

LA CROSSE, Wis., March 14.—Sentence was pronounced on the lynchers at Whitehall by Judge Newman today. Charles Johnson, O'le Sletto, Mrs. Olson and her son were sentenced to imprisonment for life; three days in each year being solitary. There was a scene of great excitement in the courtroom. Mrs. Olson fainted. The Sheriff started for Waupun with the prisoners this afternoon.

Five Cents on the Dollar.

Special to the Journal.

NEW YORK, March 14.—Ives and Stayner, who were committed to jail on default of \$25,000 bail each, January 24, 1889, on the suit of Cincinnati, Hamilton and Dayton to recover \$2,500,000, have now secured a deed settlement from 95 per cent. of their creditors on the basis of five cents on the dollar, and by consent of all the counsel the Judge to-day reduced their bail to \$5000 each.

Lee Chuck Only Gets Second Degree This Time.

Special to the Journal.

SAN FRANCISCO, March 14.—The third trial of Lee Chuck, a Chinaman tried for the murder of Yan Yuen in July, 1886, ended this evening in the jury returning a verdict of murder in the second degree. The Supreme Court reversed the two previous convictions for murder in the first degree after Chuck had been sentenced to be hanged.

Railroad Accident.

Special to the Journal.

THE DALLES, Or., March 14.—Early this morning the engine of an east bound freight train was dived two miles west of Black Rock by the rails spreading. Geo. Baker, the engineer, was badly scalded; J. J. Barnes, a brakeman, and A. Carstens, the fireman, were slightly injured.

To Outdo Nellie Bly.
